

Prerequisites

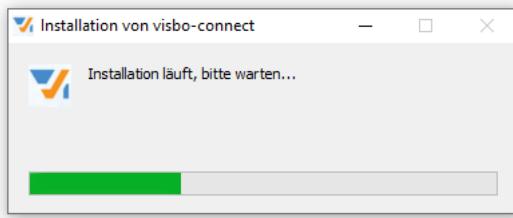

The following prerequisites are needed:

- Installation of Microsoft Excel
- Installation of VISBO Project Edit

Installation of visbo-connect

Download the file “visbo-connect Setup 0.8.1.exe”

Execute the exe file

Wait the for the installation window to disappear. The program should be installed.

Check in Programs shows:

Download the file vcn_config.json and put it into the folder

C:\Users\<username>\AppData\Roaming\visbo-connect

Edit the file and adjust the paths for the two configuration parameters

```
{"excelExe":"C:\\Program Files (x86)\\Microsoft Office\\root\\Office16\\EXCEL.EXE",
"speSheet":"C:\\Visbo\\VISBO SPE\\Visbo Project Edit.xlsx"}
```

Configuration of the Project Edit Button

For the successful usage VISBO Connect and VISBO Project Edit you need to configure an additional button in Web User Interface. This is done a special setting in your VISBO Center.

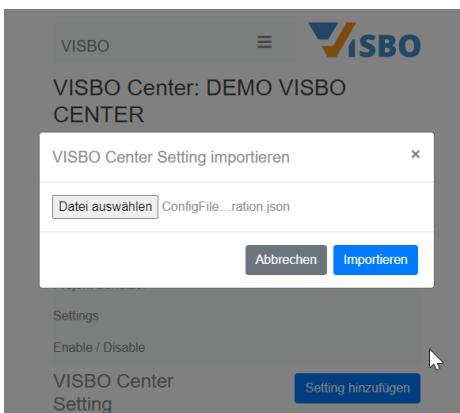

Create json file with the following content: {"parameter":["vpid","vpvid"]} and save it to the local storage.

Go to the VISBO Center Administration page and select settings.

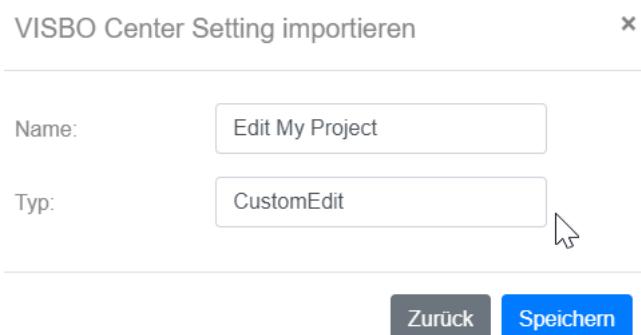

VISBO Center: DEMO VISBO CENTER

Name:	Demo Visbo Center
Beschreibung:	VISBO Center for Demo
Angelegt / Aktualisiert:	08.10.2018 11:52:53
Benutzer Gruppen Audit Organisation	
Projekt Benutzer	
Settings	

Click on the “Add Setting”-Button and select the file created json file. Afterwards click on Import.

Use “CustomEdit” as type and choose the name of the button.

Now the new Button will show up for each project in the VISBO Center

VISBO Center: Demo Visbo Center

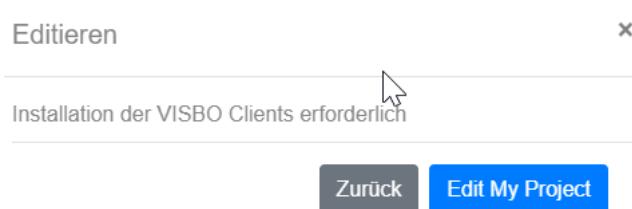

Projekt: MSProjekt 002

Version vom: 24.03.2020

Usage Project Edit started from the Web UI

Now whenever you click on the newly defined Project Edit Button in WebUI the following window shows up:

After you click on “Edit my Project” the VISBO Project Edit will start up in Excel and the project values can be changed in within the VISBO Project Edit.
